EDUCATION

Queens College (CUNY)
Bachelor of Arts in Computer Science

Flushing, NY
Aug. 2022 – Dec. 2026

TECHNICAL SKILLS

Certifications: CompTIA A+

IT Support & Hardware: Hardware troubleshooting (desktops, laptops, monitors, keyboards, printers, peripherals)

Operating Systems: Windows 10/11 administration and troubleshooting, macOS familiarity, basic Linux/Ubuntu CLI

Systems & Directory Services: Active Directory, Group Policy (GPO), Windows Server 2022

Networking Fundamentals: IP addressing, routers, switches, Wi-Fi, gateways, LAN/WAN, TCP/IP, VPN concepts

Ticketing Systems: Spiceworks, ServiceNow concepts, incident tracking workflows

Tools & Productivity: Git, Microsoft 365 (Word, Excel, Outlook, Teams), VirtualBox, RDP

PROJECTS

Active Directory Home Lab Simulation | *Active Directory, VirtualBox, Spiceworks, Windows Server* April 2026

- Provisioned and administered a Windows Server 2022 Active Directory environment via VirtualBox, configuring domain infrastructure, user account lifecycle management, and role-based access controls (RBAC).
- Supported simulated onboarding/offboarding workflows by creating and deprovisioning user accounts, assigning least-privilege permissions, and managing group policy memberships within Active Directory
- Executed Tier 1 Help Desk troubleshooting by resolving simulated tickets involving password resets, account lockouts, and user access issues using Spiceworks Cloud Help Desk.
- Maintained structured technical documentation of troubleshooting procedures, ticket resolutions, and system configurations on GitHub.

East West Law Office | *HTML, CSS, JavaScript, Responsive Web Design, Git* June 2024 – August 2024

- Developed a web application using HTML, CSS, and JavaScript and collaborated with a partner using Git for version control
- Integrated a MySQL database to store and manage client inquiries and services, supporting secure data handling
- Designed and implemented a responsive user interface aligned with professional branding requirements

EXPERIENCE

Service Desk Coordinator Jan 2025 – May 2025
Blaka Cool Inc. *Jamaica, NY*

- Served as primary Tier 1 point of contact for inbound service requests, leveraging CRM platforms to document customer needs, schedule appointments, and maintain accurate client records.
- Coordinated technician dispatch workflows and service queue management, optimizing scheduling logic to ensure SLA-compliant response times, resource utilization, and real-time communication across operational teams.
- Administered office productivity suites and record management systems (e.g., Microsoft 365, Google Workspace) to maintain service documentation.

Security Systems Associate Aug 2023 – Jan 2024
Global Security - JFK International Airport *Queens, NY*

- Administered and troubleshoot aviation data management systems to track, log, and audit flight records including arrival/departure timestamps and passenger manifests, escalating system discrepancies to senior technicians to maintain real-time data integrity.
- Operated endpoint security hardware including X-ray imaging systems and electromagnetic detection devices, performing routine equipment checks and reporting hardware malfunctions via internal ticketing workflows to ensure zero operational downtime.
- Maintained and updated digital security logs and incident reports across internal record management platforms, ensuring audit-ready documentation in compliance with TSA regulatory standards.
